## January Safety Recap: Foot & Ankle Health at Work

*Dr. Michael Jack of the Foot and Ankle Center of Ohio speaks to the Wooster Area Safety Council about the importance of foot and ankle health in the workplace.*

The Wooster Area Safety Council held its first meeting of the year on Wednesday, January 24th at First Presbyterian Church in Wooster. Dr. Michael Jack, Foot and Ankle Specialist and Surgeon with the Foot and Ankle Center of Ohio spoke to the group about the importance of foot and ankle health in the workplace.

Dr. Jack, a graduate of both Ohio State and Kent State, opened the presentation by introducing himself and talking about the Foot & Ankle Center of Ohio. He then proceeded to go over the importance of foot & ankle health in the workplace. Everybody is required to stand or walk at some point during their work day, so having healthy feet and ankles is essential. One of the most important things you can do to keep your feet and ankles healthy is to wear comfortable, supportive shoes. If you work at a job where you are constantly

on your feet, heels or flats may not be the best option. If you are unaware if your shoes are supportive enough, Dr. Jack says a good rule of thumb is if you can easily bend the shoe or sole in half, it is not supportive enough. You want something more rigid.

We would like to thank Dr. Jack for taking the time out of his day to speak to the group. We would also like to thank First Presbyterian Church for hosting us and Buehlers for catering the event. We look forward to seeing you on February 28th when we will hear from Dr. Perry Williams on how sleep apnea can affect job performance.

### Your favorite thing about Wooster or Wayne County?

My favorite thing about Wooster is the involvement in the community from both businesses and individuals alike.

### Your favorite thing about Wooster or Wayne County?

I do love all the scenic areas of the countryside of Wayne County! I also love the new updates at Christmas Run Park, Secret Arboretum, and eating on the patio at TJ's! Since I did not grow up around here, I feel at home with the Wooster area because it is similar to the town I grew up in... a historical downtown, a newly developed north end, and country on the outskirts.

# Healthcare Day: Highlighting future opportunities to area high school students

The Wooster Chamber, in partnership with the Orrville Chamber and Wayne Economic Development Council, are thrilled to present the 2018 Healthcare Day on March 6th to all the area school districts. Healthcare Day provides participating students the opportunity to see the ins and outs of various healthcare providers in Wooster and Orrville, with a goal of making positive connections that will make a difference

in the student's vision of the healthcare field as a profession. Additionally, Healthcare Day presents school district instructors and leadership with an understanding of the future opportunities for their students in the healthcare field, so that current curriculum and career awareness can be geared toward the impressive network of providers that we have in Wayne County.

The organizing partners would like to thank the participating providers and school districts for their support of Healthcare Day and their recognition that making positive connections with today's youth will reap future benefits for their respective organization and out community.
